Forecast for Tuesday 13 Sep 2022

Weather: Dry with clearing skies during the early hours although some cloud will form at times. Staying dry through the morning with increasingly lengthy periods of sunshine. Remaining dry and bright during the afternoon, with warm sunny spells. Staying dry with clear periods during the evening.

Chance of cloud-free hill tops above 800m: 60% becoming 95%.

Low Cloud and visibility: Periods of cloud above 700m will probably form during the early hours, this most likely in the north and east of the park. This cloud will lift and disperse through the morning allowing most summits to become cloud free. Generally very good visibilities but locally very poor in any cloud during the morning.

Meteorologist's View

Nothing to add.

Forecast for Wednesday 14 Sep 2022

Weather: Early mist and shallow valley fog clearing to leave another fine day with sunny spells. The sunshine will be most prolonged in southern parts of the park with more in the way of cloud at times in the north.

Maximum wind: Northerly or north-westerly 10-15 mph with occasional gusts of 20-25 mph, mainly on exposed summits in the north.

Chance of cloud-free hill tops above 800m: 70% but 40% in the north until late morning.

Low Cloud and visibility: Periods of cloud above 600-700m during the morning, this locally persistent over the Carneddau and Glyders at first. Higher cloud bases further south, with cloud becoming generally patchy above 700-800m by midday. Largely very good visibilities but locally very poor in cloud and any early valley fog.

Temperature: **Valleys:** Plus 5 Celsius rising to plus 18 Celsius.
At 800m: Plus 10 Celsius.
Freezing level: Well above the summits.
